Modernisation of Postal Services in the Country

565. SHRI RAM NATH KOVIND: Will the Minister of COMMUNICATIONS be pleased to state:

(a) whether the modernisation of Indian postal services to give more efficient and responsive service to the customers has been completed;

(b) if so, the details in this regard;

(c) whether the postal counters are being computerised throughout the country;

(d) if so, the total number of computers to be installed and the number out of them provided so far together with details of such post offices; and

(e) by when this process is likely to be completed?

THE MINISTER OF STATE OF THE MINISTRY OF COMMUNICATIONS (SHRI SUKH RAM): (a) and (b) A programme to modernise the post offices in the country is being implemented through computerisation of-counter services to provide more efficient and responsive service to the customer. Optimizing the benefits of the counter machines, entire front office activities in selected important post offices are also being modernised providing services on "single window" principle. 115 post offices all over the country were modernised under this programme during 1994-95. 350 more post offices are targeted for modernisation during the current year and the programme is to be extended next year and beyond subject to availability of resources.

(c) Computer-based counter machines are being provided for postal counters in post offices having adequate traffic and where necessary support for maintenance of the machines is available.

(d) The 8th Five Year Plan has a target of providing 5000 computer-based counter machines in different post offices in the country. Till date, 1819 counter machines have been installed and commissioned in 658 post offices in the country as per details in the enclosed statement, (see below) and 1000 more such machines are being installed during the current year.
